INTRODUCTION

Accessions List, South Asia is a monthly record of all publications acquired from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka by the U.S. Library of Congress offices in New Delhi, India, and Karachi, Pakistan. Copies of the publications acquired are distributed to the Library of Congress and other research libraries in North America participating in one or more country programs.

The acquisitions activities on which this Accessions List is based are made possible through appropriations granted to the Library of Congress by the Congress of the United States, through financial support from the American research libraries receiving the publications, and through the cooperation of the governments and the book trades in each of the countries covered by this List. The program in India is supported in part by the U.S.-India Fund for Educational, Cultural, and Scientific Cooperation which is a joint agreement between the Government of India and the Government of the United States.

PARTICIPATION AND COVERAGE

The lists of participants and their corresponding countries and languages appear after the introduction. Participating libraries may choose to receive publications by country of publication, language, and subject.

HOW TO USE THIS ACCESSIONS LIST

The entries in Accessions List, South Asia are organized by country of publication. Under each country the entries are divided into sections for monographs, serials, and special materials. In the monograph sections, entries are subdivided by language of publication and, within each language, listed in an alphabetical sequence.

The two sections under each country which list serials (additions and changes) and special materials are each arranged in a single alphabetical sequence, without regard to language. Serial titles listed for the first time are marked with an asterisk (*) before the entry.

An author/title/subject index is included in the monthly issues; an annual cumulation of the monthly index is included in the December issue.

ENTRIES

The List is based on catalog cards prepared by the field offices.

A Library of Congress card number (e.g., 90-902074, 91-900531) has been provided for most entries. Printed cards may be ordered by this number from the Library of Congress Cataloging Distribution Service. However, preassignment of a number by a field office does not guarantee availability of printed cards, nor permanent retention of the publications by the Library of Congress or by the participating libraries. Double asterisks (**) with the card number means the entry has been revised by the field office.

Pakistan titles which are generally out-of-scope for the Library of Congress collections are assigned "shadow numbers". In these "shadow numbers" an 'X' is substituted for the initial digit '7' (e.g., X9-912623), 'Y' for the initial digit '8' (e.g., Y5-930019), and 'Z' for the initial digit '9' (e.g., Z0-913910).

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

A code number appears below the Library of Congress card number on entries cataloged by the New Delhi office after April 1, 1986. For monographs from India, this code number (e.g., I-H-25590) indicates the country of origin, the language of the work, and the serial number within the language group. For monographs from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, this code number (e.g., B-B-6850, N-N-5744, C-T-6957) indicates the country of origin, the language of the work, and the serial number within the country. For serials from India, the code number (e.g., I-D-U-136) indicates the country of origin, frequency, the language of the work, and the serial number within the language group. For serials from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, the code number (e.g., B-911-S, C-1250-S) indicates the country of origin, serial number within the country, and letter 'S' indicates serial publication. Some entries have letter codes indicating country and language appearing below the Library of Congress card numbers. These code numbers should not be used in ordering Library of Congress printed cards.

Subject codes are given to many publications in this List. The key to the subject code which appears immediately below the collation is given on the pages following the Participating libraries and countries/languages coverage charts. Participants in the Cooperative Acquisitions Programs receive monographs only in the subject categories they have selected.

There are two forms of "call number" given to the left of the entries for some titles. MLC (minimal level cataloging) numbers are for titles for which Library of Congress subject and classification work will not be available. Microfiche or microfilm numbers indicate works which have been microformatted by the field office. Please cite these identification numbers in full when ordering positive fiche or film from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

All entries are printed in roman script regardless of the original script of the publication. Diacritics do not appear in the index. Romanization tables used are those accepted by the American Library Association.

Correspondence originating from Pakistan regarding this Accessions List should be addressed to the Field Director, Library of Congress Office, American Consulate General, Abdullah Haroon Road, Karachi, Pakistan. Inquiries originating outside Pakistan should be addressed to the Field Director, Library of Congress Office, N-11, South Extension, Part-1, New Delhi-110049, India. Claims for missing issues of this Accessions List in hard copy are limited to the current volume and the volume of the preceding year. Copies of completed volumes of this List are available on microfiche from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

INTRODUCTION

Accessions List, South Asia is a monthly record of all publications acquired from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka by the U.S. Library of Congress offices in New Delhi, India, and Karachi, Pakistan. Copies of the publications acquired are distributed to the Library of Congress and other research libraries in North America participating in one or more country programs.

The acquisitions activities on which this Accessions List is based are made possible through appropriations granted to the Library of Congress by the Congress of the United States, through financial support from the American research libraries receiving the publications, and through the cooperation of the governments and the book trades in each of the countries covered by this List. The program in India is supported in part by the U.S.-India Fund for Educational, Cultural, and Scientific Cooperation which is a joint agreement between the Government of India and the Government of the United States.

PARTICIPATION AND COVERAGE

The lists of participants and their corresponding countries and languages appear after the introduction. Participating libraries may choose to receive publications by country of publication, language, and subject.

HOW TO USE THIS ACCESSIONS LIST

The entries in Accessions List, South Asia are organized by country of publication. Under each country the entries are divided into sections for monographs, serials, and special materials. In the monograph sections, entries are subdivided by language of publication and, within each language, listed in an alphabetical sequence.

The two sections under each country which list serials (additions and changes) and special materials are each arranged in a single alphabetical sequence, without regard to language. Serial titles listed for the first time are marked with an asterisk (*) before the entry.

An author/title/subject index is included in the monthly issues; an annual cumulation of the monthly index is included in the December issue.

ENTRIES

The List is based on catalog cards prepared by the field offices.

A Library of Congress card number (e.g., 90-902074, 91-900531) has been provided for most entries. Printed cards may be ordered by this number from the Library of Congress Cataloging Distribution Service. However, preassignment of a number by a field office does not guarantee availability of printed cards, nor permanent retention of the publications by the Library of Congress or by the participating libraries. Double asterisks (**) with the card number means the entry has been revised by the field office.

Pakistan titles which are generally out-of-scope for the Library of Congress collections are assigned "shadow numbers". In these "shadow numbers" an 'X' is substituted for the initial digit '7' (e.g., X9-912623), 'Y' for the initial digit '8' (e.g., Y5-930019), and 'Z' for the initial digit '9' (e.g., Z0-913910).

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

A code number appears below the Library of Congress card number on entries cataloged by the New Delhi office after April 1, 1986. For monographs from India, this code number (e.g., I-H-25590) indicates the country of origin, the language of the work, and the serial number within the language group. For monographs from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, this code number (e.g., B-B-6850, N-N-5744, C-T-6957) indicates the country of origin, the language of the work, and the serial number within the country. For serials from India, the code number (e.g., I-D-U-136) indicates the country of origin, frequency, the language of the work, and the serial number within the language group. For serials from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, the code number (e.g., B-911-S, C-1250-S) indicates the country of origin, serial number within the country, and letter 'S' indicates serial publication. Some entries have letter codes indicating country and language appearing below the Library of Congress card numbers. These code numbers should not be used in ordering Library of Congress printed cards.

Subject codes are given to many publications in this List. The key to the subject code which appears immediately below the collation is given on the pages following the Participating libraries and countries/languages coverage charts. Participants in the Cooperative Acquisitions Programs receive monographs only in the subject categories they have selected.

There are two forms of "call number" given to the left of the entries for some titles. MLC (minimal level cataloging) numbers are for titles for which Library of Congress subject and classification work will not be available. Microfiche or microfilm numbers indicate works which have been microformatted by the field office. Please cite these identification numbers in full when ordering positive fiche or film from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

All entries are printed in roman script regardless of the original script of the publication. Diacritics do not appear in the index. Romanization tables used are those accepted by the American Library Association.

Correspondence originating from Pakistan regarding this Accessions List should be addressed to the Field Director, Library of Congress Office, American Consulate General, Abdullah Haroon Road, Karachi, Pakistan. Inquiries originating outside Pakistan should be addressed to the Field Director, Library of Congress Office, N-11, South Extension, Part-1, New Delhi-110049, India. Claims for missing issues of this Accessions List in hard copy are limited to the current volume and the volume of the preceding year. Copies of completed volumes of this List are available on microfiche from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

INTRODUCTION

Accessions List, South Asia is a monthly record of all publications acquired from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka by the U.S. Library of Congress offices in New Delhi, India, and Karachi, Pakistan. Copies of the publications acquired are distributed to the Library of Congress and other research libraries in North America participating in one or more country programs.

The acquisitions activities on which this Accessions List is based are made possible through appropriations granted to the Library of Congress by the Congress of the United States, through financial support from the American research libraries receiving the publications, and through the cooperation of the governments and the book trades in each of the countries covered by this List. The program in India is supported in part by the U.S.-India Fund for Educational, Cultural, and Scientific Cooperation which is a joint agreement between the Government of India and the Government of the United States.

PARTICIPATION AND COVERAGE

The lists of participants and their corresponding countries and languages appear after the introduction. Participating libraries may choose to receive publications by country of publication, language, and subject.

HOW TO USE THIS ACCESSIONS LIST

The entries in Accessions List, South Asia are organized by country of publication. Under each country the entries are divided into sections for monographs, serials, and special materials. In the monograph sections, entries are subdivided by language of publication and, within each language, listed in an alphabetical sequence.

The two sections under each country which list serials (additions and changes) and special materials are each arranged in a single alphabetical sequence, without regard to language. Serial titles listed for the first time are marked with an asterisk (*) before the entry.

An author/title/subject index is included in the monthly issues; an annual cumulation of the monthly index is included in the December issue.

ENTRIES

The List is based on catalog cards prepared by the field offices.

A Library of Congress card number (e.g., 90-902074, 91-900531) has been provided for most entries. Printed cards may be ordered by this number from the Library of Congress Cataloging Distribution Service. However, preassignment of a number by a field office does not guarantee availability of printed cards, nor permanent retention of the publications by the Library of Congress or by the participating libraries. Double asterisks (**) with the card number means the entry has been revised by the field office.

Pakistan titles which are generally out-of-scope for the Library of Congress collections are assigned "shadow numbers". In these "shadow numbers" an 'X' is substituted for the initial digit '7' (e.g., X9-912623), 'Y' for the initial digit '8' (e.g., Y5-930019), and 'Z' for the initial digit '9' (e.g., Z0-913910).

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

A code number appears below the Library of Congress card number on entries cataloged by the New Delhi office after April 1, 1986. For monographs from India, this code number (e.g., I-H-25590) indicates the country of origin, the language of the work, and the serial number within the language group. For monographs from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, this code number (e.g., B-B-6850, N-N-5744, C-T-6957) indicates the country of origin, the language of the work, and the serial number within the country. For serials from India, the code number (e.g., I-D-U-136) indicates the country of origin, frequency, the language of the work, and the serial number within the language group. For serials from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, the code number (e.g., B-911-S, C-1250-S) indicates the country of origin, serial number within the country, and letter 'S' indicates serial publication. Some entries have letter codes indicating country and language appearing below the Library of Congress card numbers. These code numbers should not be used in ordering Library of Congress printed cards.

Subject codes are given to many publications in this List. The key to the subject code which appears immediately below the collation is given on the pages following the Participating libraries and countries/languages coverage charts. Participants in the Cooperative Acquisitions Programs receive monographs only in the subject categories they have selected.

There are two forms of "call number" given to the left of the entries for some titles. MLC (minimal level cataloging) numbers are for titles for which Library of Congress subject and classification work will not be available. Microfiche or microfilm numbers indicate works which have been microformatted by the field office. Please cite these identification numbers in full when ordering positive fiche or film from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

All entries are printed in roman script regardless of the original script of the publication. Diacritics do not appear in the index. Romanization tables used are those accepted by the American Library Association.

Correspondence originating from Pakistan regarding this Accessions List should be addressed to the Field Director, Library of Congress Office, American Consulate General, Abdullah Haroon Road, Karachi, Pakistan. Inquiries originating outside Pakistan should be addressed to the Field Director, Library of Congress Office, N-11, South Extension, Part-1, New Delhi-110049, India. Claims for missing issues of this Accessions List in hard copy are limited to the current volume and the volume of the preceding year. Copies of completed volumes of this List are available on microfiche from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

INTRODUCTION

Accessions List, South Asia is a monthly record of all publications acquired from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka by the U.S. Library of Congress offices in New Delhi, India, and Karachi, Pakistan. Copies of the publications acquired are distributed to the Library of Congress and other research libraries in North America participating in one or more country programs.

The acquisitions activities on which this Accessions List is based are made possible through appropriations granted to the Library of Congress by the Congress of the United States, through financial support from the American research libraries receiving the publications, and through the cooperation of the governments and the book trades in each of the countries covered by this List. The program in India is supported in part by the U.S.-India Fund for Educational, Cultural, and Scientific Cooperation which is a joint agreement between the Government of India and the Government of the United States.

PARTICIPATION AND COVERAGE

The lists of participants and their corresponding countries and languages appear after the introduction. Participating libraries may choose to receive publications by country of publication, language, and subject.

HOW TO USE THIS ACCESSIONS LIST

The entries in Accessions List, South Asia are organized by country of publication. Under each country the entries are divided into sections for monographs, serials, and special materials. In the monograph sections, entries are subdivided by language of publication and, within each language, listed in an alphabetical sequence.

The two sections under each country which list serials (additions and changes) and special materials are each arranged in a single alphabetical sequence, without regard to language. Serial titles listed for the first time are marked with an asterisk (*) before the entry.

An author/title/subject index is included in the monthly issues; an annual cumulation of the monthly index is included in the December issue.

ENTRIES

The List is based on catalog cards prepared by the field offices.

A Library of Congress card number (e.g., 90-902074, 91-900531) has been provided for most entries. Printed cards may be ordered by this number from the Library of Congress Cataloging Distribution Service. However, preassignment of a number by a field office does not guarantee availability of printed cards, nor permanent retention of the publications by the Library of Congress or by the participating libraries. Double asterisks (**) with the card number means the entry has been revised by the field office.

Pakistan titles which are generally out-of-scope for the Library of Congress collections are assigned "shadow numbers". In these "shadow numbers" an 'X' is substituted for the initial digit '7' (e.g., X9-912623), 'Y' for the initial digit '8' (e.g., Y5-930019), and 'Z' for the initial digit '9' (e.g., Z0-913910).

CC-0. In Public Domain. Gurukul Kangri Collection, Haridwar

Digitized by Arya Samaj Foundation Chennai and eGangotri

A code number appears below the Library of Congress card number on entries cataloged by the New Delhi office after April 1, 1986. For monographs from India, this code number (e.g., I-H-25590) indicates the country of origin, the language of the work, and the serial number within the language group. For monographs from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, this code number (e.g., B-B-6850, N-N-5744, C-T-6957) indicates the country of origin, the language of the work, and the serial number within the country. For serials from India, the code number (e.g., I-D-U-136) indicates the country of origin, frequency, the language of the work, and the serial number within the language group. For serials from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, the code number (e.g., B-911-S, C-1250-S) indicates the country of origin, serial number within the country, and letter 'S' indicates serial publication. Some entries have letter codes indicating country and language appearing below the Library of Congress card numbers. These code numbers should not be used in ordering Library of Congress printed cards.

Subject codes are given to many publications in this _List_. The key to the subject code which appears immediately below the collation is given on the pages following the Participating libraries and countries/languages coverage charts. Participants in the Cooperative Acquisitions Programs receive monographs only in the subject categories they have selected.

There are two forms of "call number" given to the left of the entries for some titles. MLC (minimal level cataloging) numbers are for titles for which Library of Congress subject and classification work will not be available. Microfiche or microfilm numbers indicate works which have been microformatted by the field office. Please cite these identification numbers in full when ordering positive fiche or film from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

All entries are printed in roman script regardless of the original script of the publication. Diacritics do not appear in the index. Romanization tables used are those accepted by the American Library Association.

Correspondence originating from Pakistan regarding this _Accessions List_ should be addressed to the Field Director, Library of Congress Office, American Consulate General, Abdullah Haroon Road, Karachi, Pakistan. Inquiries originating outside Pakistan should be addressed to the Field Director, Library of Congress Office, N-11, South Extension, Part-1, New Delhi-110049, India. Claims for missing issues of this _Accessions List_ in hard copy are limited to the current volume and the volume of the preceding year. Copies of completed volumes of this _List_ are available on microfiche from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

INTRODUCTION

Accessions List, South Asia is a monthly record of all publications acquired from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka by the U.S. Library of Congress offices in New Delhi, India, and Karachi, Pakistan. Copies of the publications acquired are distributed to the Library of Congress and other research libraries in North America participating in one or more country programs.

The acquisitions activities on which this Accessions List is based are made possible through appropriations granted to the Library of Congress by the Congress of the United States, through financial support from the American research libraries receiving the publications, and through the cooperation of the governments and the book trades in each of the countries covered by this List. The program in India is supported in part by the U.S.-India Fund for Educational, Cultural, and Scientific Cooperation which is a joint agreement between the Government of India and the Government of the United States.

PARTICIPATION AND COVERAGE

The lists of participants and their corresponding countries and languages appear after the introduction. Participating libraries may choose to receive publications by country of publication, language, and subject.

HOW TO USE THIS ACCESSIONS LIST

The entries in Accessions List, South Asia are organized by country of publication. Under each country the entries are divided into sections for monographs, serials, and special materials. In the monograph sections, entries are subdivided by language of publication and, within each language, listed in an alphabetical sequence.

The two sections under each country which list serials (additions and changes) and special materials are each arranged in a single alphabetical sequence, without regard to language. Serial titles listed for the first time are marked with an asterisk (*) before the entry.

An author/title/subject index is included in the monthly issues; an annual cumulation of the monthly index is included in the December issue.

ENTRIES

The List is based on catalog cards prepared by the field offices.

A Library of Congress card number (e.g., 90-902074, 91-900531) has been provided for most entries. Printed cards may be ordered by this number from the Library of Congress Cataloging Distribution Service. However, preassignment of a number by a field office does not guarantee availability of printed cards, nor permanent retention of the publications by the Library of Congress or by the participating libraries. Double asterisks (**) with the card number means the entry has been revised by the field office.

Pakistan titles which are generally out-of-scope for the Library of Congress collections are assigned "shadow numbers". In these "shadow numbers" an 'X' is substituted for the initial digit '7' (e.g., X9-912623), 'Y' for the initial digit '8' (e.g., Y5-930019), and 'Z' for the initial digit '9' (e.g., Z0-913910).

Digitized by Arya Samaj Foundation Chennai and eGangotri

A code number appears below the Library of Congress card number on entries cataloged by the New Delhi office after April 1, 1986. For monographs from India, this code number (e.g., I-H-25590) indicates the country of origin, the language of the work, and the serial number within the language group. For monographs from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, this code number (e.g., B-B-6850, N-N-5744, C-T-6957) indicates the country of origin, the language of the work, and the serial number within the country. For serials from India, the code number (e.g., I-D-U-136) indicates the country of origin, frequency, the language of the work, and the serial number within the language group. For serials from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, the code number (e.g., B-911-S, C-1250-S) indicates the country of origin, serial number within the country, and letter 'S' indicates serial publication. Some entries have letter codes indicating country and language appearing below the Library of Congress card numbers. These code numbers should not be used in ordering Library of Congress printed cards.

Subject codes are given to many publications in this List. The key to the subject code which appears immediately below the collation is given on the pages following the Participating libraries and countries/languages coverage charts. Participants in the Cooperative Acquisitions Programs receive monographs only in the subject categories they have selected.

There are two forms of "call number" given to the left of the entries for some titles. MLC (minimal level cataloging) numbers are for titles for which Library of Congress subject and classification work will not be available. Microfiche or microfilm numbers indicate works which have been microformatted by the field office. Please cite these identification numbers in full when ordering positive fiche or film from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

All entries are printed in roman script regardless of the original script of the publication. Diacritics do not appear in the index. Romanization tables used are those accepted by the American Library Association.

Correspondence originating from Pakistan regarding this Accessions List should be addressed to the Field Director, Library of Congress Office, American Consulate General, Abdullah Haroon Road, Karachi, Pakistan. Inquiries originating outside Pakistan should be addressed to the Field Director, Library of Congress Office, N-11, South Extension, Part-1, New Delhi-110049, India. Claims for missing issues of this Accessions List in hard copy are limited to the current volume and the volume of the preceding year. Copies of completed volumes of this List are available on microfiche from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

INTRODUCTION

Accessions List, South Asia is a monthly record of all publications acquired from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka by the U.S. Library of Congress offices in New Delhi, India, and Karachi, Pakistan. Copies of the publications acquired are distributed to the Library of Congress and other research libraries in North America participating in one or more country programs.

The acquisitions activities on which this Accessions List is based are made possible through appropriations granted to the Library of Congress by the Congress of the United States, through financial support from the American research libraries receiving the publications, and through the cooperation of the governments and the book trades in each of the countries covered by this List. The program in India is supported in part by the U.S.-India Fund for Educational, Cultural, and Scientific Cooperation which is a joint agreement between the Government of India and the Government of the United States.

PARTICIPATION AND COVERAGE

The lists of participants and their corresponding countries and languages appear after the introduction. Participating libraries may choose to receive publications by country of publication, language, and subject.

HOW TO USE THIS ACCESSIONS LIST

The entries in Accessions List, South Asia are organized by country of publication. Under each country the entries are divided into sections for monographs, serials, and special materials. In the monograph sections, entries are subdivided by language of publication and, within each language, listed in an alphabetical sequence.

The two sections under each country which list serials (additions and changes) and special materials are each arranged in a single alphabetical sequence, without regard to language. Serial titles listed for the first time are marked with an asterisk (*) before the entry.

An author/title/subject index is included in the monthly issues; an annual cumulation of the monthly index is included in the December issue.

ENTRIES

The List is based on catalog cards prepared by the field offices.

A Library of Congress card number (e.g., 90-902074, 91-900531) has been provided for most entries. Printed cards may be ordered by this number from the Library of Congress Cataloging Distribution Service. However, preassignment of a number by a field office does not guarantee availability of printed cards, nor permanent retention of the publications by the Library of Congress or by the participating libraries. Double asterisks (**) with the card number means the entry has been revised by the field office.

Pakistan titles which are generally out-of-scope for the Library of Congress collections are assigned "shadow numbers". In these "shadow numbers" an 'X' is substituted for the initial digit '7' (e.g., X9-912623), 'Y' for the initial digit '8' (e.g., Y5-930019), and 'Z' for the initial digit '9' (e.g., Z0-913910).

Digitized by Arya Samaj Foundation Chennai and eGangotri

A code number appears below the Library of Congress card number on entries cataloged by the New Delhi office after April 1, 1986. For monographs from India, this code number (e.g., I-H-25590) indicates the country of origin, the language of the work, and the serial number within the language group. For monographs from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, this code number (e.g., B-B-6850, N-N-5744, C-T-6957) indicates the country of origin, the language of the work, and the serial number within the country. For serials from India, the code number (e.g., I-D-U-136) indicates the country of origin, frequency, the language of the work, and the serial number within the language group. For serials from Bangladesh, Bhutan, Maldives, Nepal, and Sri Lanka, the code number (e.g., B-911-S, C-1250-S) indicates the country of origin, serial number within the country, and letter 'S' indicates serial publication. Some entries have letter codes indicating country and language appearing below the Library of Congress card numbers. These code numbers should not be used in ordering Library of Congress printed cards.

Subject codes are given to many publications in this List. The key to the subject code which appears immediately below the collation is given on the pages following the Participating libraries and countries/languages coverage charts. Participants in the Cooperative Acquisitions Programs receive monographs only in the subject categories they have selected.

There are two forms of "call number" given to the left of the entries for some titles. MLC (minimal level cataloging) numbers are for titles for which Library of Congress subject and classification work will not be available. Microfiche or microfilm numbers indicate works which have been microformatted by the field office. Please cite these identification numbers in full when ordering positive fiche or film from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.

All entries are printed in roman script regardless of the original script of the publication. Diacritics do not appear in the index. Romanization tables used are those accepted by the American Library Association.

Correspondence originating from Pakistan regarding this Accessions List should be addressed to the Field Director, Library of Congress Office, American Consulate General, Abdullah Haroon Road, Karachi, Pakistan. Inquiries originating outside Pakistan should be addressed to the Field Director, Library of Congress Office, N-11, South Extension, Part-1, New Delhi-110049, India. Claims for missing issues of this Accessions List in hard copy are limited to the current volume and the volume of the preceding year. Copies of completed volumes of this List are available on microfiche from the Photoduplication Service, Library of Congress, Washington, D.C. 20540.
